AMENDMENT

*Commissioner for Patents  
P.O. Box 1450  
Alexandria, Virginia 22313-1450*

This is in response to the March 9, 2007 office action, which objected to the drawings, entered some rejections based on formalities, and substantively rejected all claims based on art. The applicant requests reconsideration. This response is timely because September 9 was a Sunday, this response is being filed on the next business day, and it is accompanied by a petition for a three-month extension of time. Please amend the application as explained below.

Amendments to the claims are reflected on the listing of claims that begins on page 2.

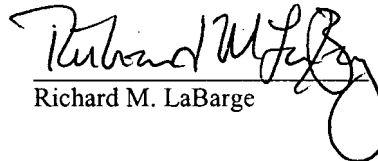

Replacement drawings are enclosed. The drawings include more-legible notations. All notations are clearly supported by the written description. No new matter has been added.

Remarks begin on page 6.
